Professional Summary

I'm a Computer Science undergraduate with a strong grasp and hands-on experience in Data Analytics and Machine Learning, eager to apply Software Development skills in real-world settings. I have developed good leadership skills in the Microsoft Student Chapter. I bring a creative, collaborative, analytical, and problem-solving mindset, along with a willingness to learn and grow.

Education

- | | |
|---|-----------------------------|
| Vellore Institute of Technology, Amaravati (B.Tech - CSE) | <i>Sept 2023 - Present</i> |
| <ul style="list-style-type: none"> ◦ CGPA: 8.83/10.0 ◦ Relevant Coursework: Object-Oriented Programming, Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Design & Analysis of Algorithms ◦ Clubs: Microsoft Student Chapter, Laetitia | |
| Sri Chaitanya Junior Kalasala, Hyderabad (Class XI - XII) | <i>May 2021 - June 2023</i> |
| <ul style="list-style-type: none"> ◦ Percentage: 96.8% ◦ JEE Mains Percentile: 95.59 | |
| Bhavan's Sri Ramakrishna Vidyalaya, Hyderabad (Class I - X) | <i>Apr 2011 - Apr 2021</i> |
| <ul style="list-style-type: none"> ◦ Percentage: 95.8% | |

Technical Skills

Programming Languages: Python, Java, R, SQL
Data Analysis & Visualization: NumPy, Pandas, SciPy, Matplotlib, Seaborn, Scikit-learn, Excel
Machine Learning: Linear & Logistic Regression, Ridge & Lasso Regression, Decision Trees, Random Forests, Gradient Boosting, Support Vector Machines (SVM), Clustering techniques, Basic Bayesian Networks
Database Management: MySQL, DBMS
Basic Web Technologies: HTML, CSS, JavaScript
Basic Tools & Platforms: Git, GitHub, AWS, MATLAB, Overleaf (LaTeX)

Projects

- OptiCrop - Machine Learning-Based Crop Recommendation System** *May 2025*
Python, Scikit-Learn, Pandas, NumPy
 - Designed and trained a multi-class Logistic Regression model on a dataset of 2,200 agricultural records across 7 soil and climate parameters (N, P, K, temperature, humidity, pH, rainfall). Cleaned data and removed statistical outliers via IQR filtering to predict crop suitability across 22 unique varieties with 94.4% accuracy.
- Spotify Music Trends - Data Analysis Project** *May 2024*
R, ggplot2, dplyr, tidyr, Exploratory Data Analysis (EDA)
 - Developed an R-based Spotify data analysis project to clean, analyze, and visualize song data, identifying insights about song popularity, genres, and duration using the dplyr library and various visualizations.
- Interactive Hangman Game Application** *May 2024*
Java, Object-Oriented Programming (OOP), Data Structures
 - Developed a command-line puzzle game with character matching and input validation.
- Highest Grossing Movies - Data Analysis Project** *December 2023*
Python, Pandas, NumPy, Matplotlib, Data Wrangling
 - Analyzed 20+ years of film industry data to identify trends in release volume, genre distribution, and revenue; cleaned and structured complex datasets to build informative data visualizations.

Leadership Roles

1. Deputy Club Manager - Microsoft Student Chapter

- Promoted through five progressive leadership tiers from **Co-Lead, Lead, Head of External Affairs, and Community Manager to Deputy Club Manager**, demonstrating sustained organizational growth and executive oversight, in less than 6 months.
- Coordinated with industry professionals to organize webinars and improve the chapter's visibility.

2. Member - Laetitia Club

- Contributed to designing the promotional materials for the Laetitia Club, a Latin word for joy, to improve people's mental health.

Certifications

1. Data Analysis - Google

August 2026

- Learned the complete data analysis process, including asking the right questions, preparing, cleaning, analyzing, and visualizing data.
- Applied data analysis concepts using Python to complete a real-world case study.

2. Data Analysis with Python - Google

July 2026

- Completed hands-on training in Python for data analysis, covering functions, conditional statements, loops, strings, and Python data structures.
- Learned to work with raw data, clean datasets, and prepare them for meaningful analysis.

3. Machine Learning Certification - SmartBridge and Google for Developers

May 2025

- Learned and implemented supervised and unsupervised machine learning, data preprocessing, feature engineering, and evaluation of machine learning models.
- Built and evaluated machine learning models using Python and Scikit-learn in **OptiCrop** project.

4. Classical Carnatic Music - Potti Sreeramulu Telugu University

December 2021

- Certified Carnatic vocalist with First-Division professional distinction.

Hobbies and Achievements

1. Classical Carnatic Music:

- A passionate Carnatic vocalist with professional certification in Carnatic Vocal music.

2. Academics:

- Achieved national-level qualification twice in the competitive Spell Bee.

3. Arts and Crafts:

- Creative hobbyist with a talent for making unique mould-it clay and m-seal sculptures.

Languages

- **Proficient:** English, Hindi
- **Native:** Telugu
